Collibra On-the-Go for Excel

Release Notes

Release Notes Collibra On-the-Go for Excel 1.0

Collibra On-the-Go for Excel is an add-in that brings some of the Collibra Data Governance Center functionalities to your Microsoft Excel user experience.

The add-in enables you to:

- Search for resources in your Collibra DGC.
- Import views from Collibra DGC.
- Manage imported data and update linked views with a single click.

Fixes

1.0.7

- The plugin no longer crashes when your search query contains a formatting error or when the environment cannot be reached.
- Libraries are updated to fix security issues.
